If a corrected claim is submitted without this information, the claim will be processed as a first time claim and will deny as a duplicate. Additionally, this process is for correcting denied claims only, not correcting rejected claims.

Cenpatco encourages you to submit corrected claims via EDI with the information in the appropriate loop list above. However you may choose to also utilize our website. While it is not necessary to attach the original Cenpatco EOP indicating the denial, when submitting through the web, you may attach if you choose.

COB "90 day provision"

If the primary carrier has not provided a response to a primary bill within 90 days of submission, Cenpatco follows IHCP guidelines and accepts your verification that attempts to bill the primary carrier within 90 days of service occurred. Currently Cenpatco requires providers to write "No response after 90-days" at the top of the claim, and provide documentation of billing the primary payor. As of December 1, 2014 providers must include a statement within the claim itself, instead of writing the information on the top of the claim.

Please place a note stating "No response after 90 days" in Box 19 of the CMS 1500 or Box 80 on the UB-04 OR if you are including an attachment, you may write "No response after 90 days" on the attachment. We encourage providers to make these submissions via our web portal when the supporting document can be attached and the claim process electronically vs a paper submission.
