

Injectable Medication Authorization Changes

Date

Dear Provider,

Effective date of service February 1, 2015, Cenpatico will no longer require participating providers to obtain prior authorization for Long-Acting Antipsychotic injectable medications. The following injectable medication procedure codes will no longer require prior authorization:

- J2794 (Risperidone, long acting, 0.5 mg, Risperdal Consta Long Acting)
- J2358 (Olanzapine, long-acting, 1 mg)
- J2426 (Invega Sustenna, Paliperidone palmitate extended release, 1mg)
- J2680 (Fluphenazine Decanoate up to 25 MG)
- J1631 (Haloperidol Decanoate 50 MG)

All non-participating providers are required to obtain prior authorization for all services rendered.

For any additional questions please contact Cenpatico Customer Service at 1 (800) 716-5650.
