

## Cenpatico Discharge Consultation Appointments (513 Revenue Code)

### ***Effective Immediately!***

In an effort to increase follow-up rates and member compliance with recommended treatment, inpatient facilities are able to provide, and bill for, the 513 revenue code. The 513 revenue code is a billable service on the day of discharge.

The 513 service consists of the facility staff (*no licensure requirements*) reviewing the discharge plan with the member. Review to include but not limited to:

- Follow-up appointments that have been arranged
- Medications prescribed
- Additional resources and supports recommended

### **How does my facility bill for these appointments?**

It's **easy** as 1, 2, 3, 4...

1. Submit 513 revenue code on a separate claim form from the member's inpatient stay **or** add a line item to the inpatient claim for the 513 (*choice is yours*).
2. Provide the Consultation service on the **Day of Discharge**.
3. **No** authorization required – this appointment will be linked to your inpatient authorization.
4. Remind member to comply with their Out Patient follow-up appointments.

Cenpatico is in the process of setting up our systems to ensure that the 513 revenue code accurately processes. In the interim, if you should receive a denial or if there are **any** billing issues, we're here to help. Please do not hesitate to call us so that we may ensure payment.
